

Mr Warren Roberts
Chief Executive Officer
City of Stonnington

15 October 2009

Dear Warren (and IMAP Implementation Committee)

It is with great sadness that I give notice of my resignation from my role as IMAP Implementation Officer as at Wednesday 2nd December 2009.

As I have communicated to yourself and the IMAP Implementation Committee over the last few months, this resignation is due to my husband accepting an offer to relocate overseas and my plans to join him towards the end of this year. Although pending for some time now, he has now physically relocated and our personal affairs have been dealt with so it is time for me to commit to a date to join him.

I would like to take this opportunity to thank you and the entire Committee for the support I have received over the last 16 months. Whether a quick reply to an email seeking direction, an impromptu meeting to offer advice or inspiring words to acknowledge IMAP's successes, this support has empowered me to drive implementation and increase the 'momentum' and profile of IMAP's work.

I believe IMAP is a fantastic model and although I am sad to leave the role, I am also excited about the skills and passion a different person will bring to the role to deliver and add value to future implementation.

As the City of Port Phillip is my substantive employer, I have formally notified my past Manager at Port Phillip of my resignation and asked for him to initiate communications with Katherine Sinclair at the City of Stonnington to progress the necessary documentation.

The role of IMAP Implementation Officer has proven to be a wonderful personal opportunity for me in consolidating years of experience of specific roles into one very broad and rewarding role and will stand me in good stead for whatever I choose to take on next – perhaps the International Movement of Action People (IMAP) based in Hong Kong.

Yours sincerely

Alison Fitzgerald
IMAP Implementation Officer
